To Whom It May Concern

This is for the general information that we, BEXIMCO IT Division, have installed 15 units of Airco Saver (an energy efficiency device for Air-conditioning system) on a test basis and the installation was carried out by SBEnergy Ltd., House# CWN (A) 34, Road# 35, Gulshan-2, Dhaka-1212, Bangladesh.

Our test result confirms energy savings up to 15%. We have not observed any performance issues with the Air Conditioners during a three months' test period. Based on the satisfactory result, we are planning to install more Airco Savers in future.

Our best wishes to SBEnergy Ltd.

Sincerely,

Prakash Das
Head of Operations
IT Division
Bangladesh Export Import Co. Ltd.
